

IAS-FINAL CERTIFICATION 2

NETWORKING BASICS

By:Mark John Panes III-AINS

NO. OF TRAINING HOURS: 22 HRS

DESCRIPTION:

This certification helped me develop a solid understanding of computer networking fundamentals, including network devices, media, and protocols. I learned how data flows across a network and gained hands-on experience in configuring devices to establish connectivity. I also explored how different network applications and protocols are used to perform essential networking tasks. Overall, it provided me with a strong foundation and practical knowledge for pursuing a career in the technology field.
