

Group Final Output

Instruction for Group Appreciation Activity

Topic: *Technology's Role in Democracy, Society, and Responsible Innovation*

Objective

Analyze how technology influences democracy and society, and articulate the responsibility of IT professionals in ensuring responsible governance and innovation.

Guidelines

1. Form Groups:

- Each group should consist of 3–4 members.
- Assign roles (e.g., researcher, writer, presenter, designer) to ensure equal participation.

2. Research & Discussion:

- Explore how technology impacts democracy (e.g., social media in elections, digital transparency, e-governance).
- Examine societal effects (e.g., inclusivity, misinformation, digital divide).
- Identify IT professionals' responsibilities (e.g., ethical design, privacy protection, responsible AI, governance frameworks).

3. Group Appreciation Output:

- Create a **short written appreciation/reflection (300–500 words)** highlighting:
 - Positive contributions of technology to democracy and society.
 - Risks and challenges posed by irresponsible innovation.
 - The ethical and governance responsibilities of IT professionals.
- End with a **collective statement of commitment** (e.g., "As future IT leaders, we commit to responsible innovation that empowers society and strengthens democracy.").

4. Creative Expression:

- Present your appreciation in any of the following formats:
 - A **short video (2–3 minutes)** summarizing your group's insights.
 - A **social media-style post** with hashtags (#ResponsibleInnovation #TechForGood #DigitalDemocracy).

5. Submission & Sharing:

- Submit your reflection and creative output to the TBL Hub.
- Provide links and a screen capture of what was **shared in your personal page with a minimum of 100 likes**

6. Evaluation Criteria

- **Depth of Analysis** (30%) – Clear understanding of technology's role in democracy, society, and governance.
- **Collaboration & Creativity** (30%) – Evidence of teamwork and originality in presentation.
- **Clarity & Responsibility** (40%) – Strong articulation of IT professionals' ethical duties and responsible innovation.

Due Date : May 18, 2026.
